### Brief Introductory Statement

I am a dynamic and accomplished leader in finance and business management, with over 15 years of progressive experience at top-tier financial institutions across the Asia-Pacific region. My career is defined by a proven track record of strategic leadership, including managing multi-million-dollar budgets, driving global initiatives, and optimizing cross-border processes to achieve operational excellence and regulatory compliance.

My expertise spans financial analysis, agile project management and stakeholder engagement. Notable achievements include leading a transformative automated solution impacting over 50 countries across APAC, EMEA, and the Americas (excluding the U.S.), as well as spearheading the Talent Strategy Project to enhance risk mitigation and regulatory adherence. I excel in fostering transparent communication and cultivating collaborative partnerships to drive impactful outcomes.

I have proudly served Ying Wa Girls' School as an Incorporated Management Committee (IMC) Manager since September 2023 and previously as an IMC Honorary Manager from September 2018 to August 2023. These roles have allowed me to contribute meaningfully to the School's governance and development.

It would be my privilege to continue leveraging my expertise and commitment to serve the School and our community.
