Brief Introductory Statement

Only two years in YWGS (1972-74) but the impact has been life-long. I came from another school to study matriculation course which not only opened my eyes to a world of all-round education but instilled in me values that have become my life foundation. After university, I worked briefly in a bank before joining education as a teacher of English and Religion and eventually became a principal of a Christian girls' school with a history slightly older than YWGS. Throughout my principal ship, YWGS education had been influential in my endeavours, enabling me to enjoy a hard but fruitful experience. Upon retirement, I worked part-time with the Education Bureau HKSAR in professional development of principals and teachers which is a blessed continuation of my journey as an educator. I have also been serving on the Board of World Vision HK in which my horizons are broadened by the worldwide concern for vulnerable children. I was invited to become an Honorary Manger of YWGS board in 2023. I witnessed the growth of the school and how cherished values are still very much upheld. With a grateful heart, I would love to serve my beloved Alma mater when opportunity arises.
